

Retiree Reporting: Web Entry

Employers are required to report to NHRS any retirees who worked in part-time positions in the prior calendar year. Retirees must be reported on an annual basis, no later than February 15 each year. Please note that employers with no NHRS retirees on their payroll are also required to report to NHRS.

- To report retirees via web entry, log into the **Data Reporting System (DRS)** and click on **Batch Maintenance** in the Retiree Reporting section of the menu.

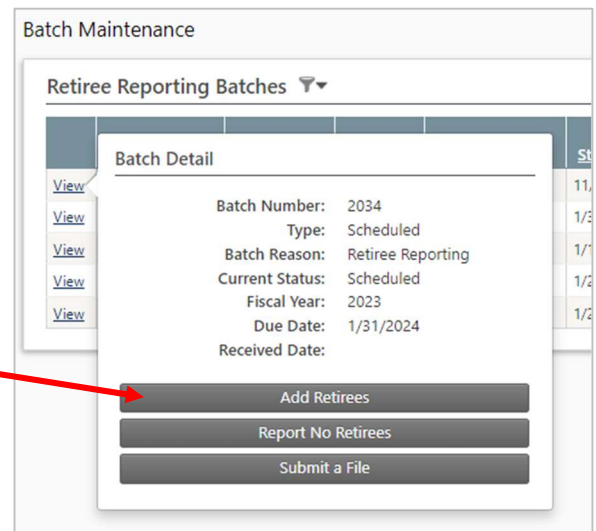

- Click **View** on the scheduled batch for the calendar year you are reporting. **Note:** Previously posted batches from prior years also will be listed on this screen. The current batch will show a status of Scheduled.

- Click **Add Retirees**. This will update the batch with all reported retirees from the prior year's retiree reporting batch. There is no undo for this action. Once the user clicks **Add Retirees**, they will have to manually delete any they no longer need to report (see Step 4). **Note:** When the batch is loaded from the prior year, previous hours and wages do not carry over; these fields are blank.

- To **delete** a retiree from the batch, click on the **Delete** button beside the retiree's name. If a retiree was accidentally deleted, clicking the **Restore** button will undo the action if the batch has not yet been posted.
