About this report

The New Hampshire Retirement System (NHRS, the retirement system) is pleased to present the Summary Annual Financial Report (“Summary CAFR”) for the fiscal year ended June 30, 2018. This report is presented in conformity with Generally Accepted Accounting Principles and is intended to provide an overview of NHRS financial, investment, funding, accounting, and demographic information in an easy-to-understand format.

About NHRS

NHRS was established in 1967 as a contributory, defined benefit plan. The plan provides lifetime pension benefits that are determined at retirement under formulas prescribed by law; the pension benefit is not calculated based on investment returns or contributions.

The retirement system provides service retirement, early retirement, disability retirement, and vested deferred retirement benefits, as well as pre- and post-retirement death benefits. It also provides eligible retirees and beneficiaries with other post-employment benefits (OPEB). This benefit consists of a post-retirement Medical Subsidy, which is a payment made by NHRS to an eligible retired member’s former employer toward the cost of the retired member’s health insurance premium.

Benefit formulas and eligibility requirements are set by state law (RSA 100-A). The retirement system is also governed by administrative rules, policies adopted by the Board of Trustees, and the Internal Revenue Code.

Retirement system members are state, county and municipal employees, teachers, police officers, and firefighters. The membership consists of two groups, Group I (Employee and Teacher) and Group II (Police and Fire).

NHRS has 48,121 active, contributing members. Group I members make up 88 percent of the total active membership. Group II members make up 12 percent of the total active membership.

The retirement system has 37,012 pension recipients and 9,869 retirees and/or beneficiaries receiving a post-retirement Medical Subsidy.

Benefits are funded by member contributions, employer contributions, and net investment returns. Investment returns have historically provided the majority of funding for pension benefits.

NHRS has 467 participating employers – the State of New Hampshire, counties, individual communities, school districts, and others. Not every political subdivision participates in the retirement system for its employees, although most do. Participation is mandatory for police, fire, and teacher employers.

The year in review...

Financial Highlights

- Plan net position stood at \$8.874 billion, an increase of \$580.9 million (7.0%) from the prior year's net position.
- Net investment income during fiscal year 2018 was \$720.2 million, a \$262.1 million (26.7%) decrease over the prior fiscal year. The net investment income for fiscal year 2018 reflects a time-weighted return for the total fund during the year of 8.9% compared to a time-weighted investment return of 13.5% for the fiscal year ended June 30, 2017.
- The total contributions received during the fiscal year were \$684.4 million. For fiscal year 2017, total contributions received were \$638.9 million.
- Employer contributions for fiscal year 2018 increased to \$466.8 million (9.6%) compared with employer contributions in fiscal year 2017 of \$425.8 million. The increase in employer contributions in fiscal year 2018 was primarily due to an increase in employer contribution rates from the prior fiscal year.
- Member contributions were \$217.6 million in fiscal year 2018, an increase of 2.1% over fiscal year 2017 member contributions of \$213.1 million. The increase in member contributions is primarily due to an increase in earnable compensation for contributing members. Overall member normal contributions increased by \$4.7 million (2.2%) over the prior fiscal year. Voluntary member contributions decreased by \$0.1 million (-3.3%) over fiscal year 2017.
- Benefits paid during fiscal year 2018 were \$791.0 million, an increase of 4.5% over the benefits paid in fiscal year 2017 of \$756.9 million. The increase in benefits paid in fiscal year 2018 is primarily due to an increase in the number of retirees and increased average benefit levels for those new retirees.

Legislative Changes

Legislation was enacted in the 2018 session which:

- Made significant changes to the laws governing NHRS retirees working part-time for retirement system participating employers.
- Granted a one-time additional allowance of \$500 in fiscal year 2019 to eligible retired members.
- Established a committee to study level dollar amortization of the retirement system's unfunded actuarial accrued liability (UAAL) and increased NHRS trustee terms from 2 years to 3 years.
- Required the retirement system to amortize biennial unfunded liabilities accrued on or after July 1, 2017, for a closed, fixed period of no longer than 20 years.

Major Initiatives

NHRS faces many issues common to other public employee retirement plans. As part of its proactive response to these challenges, the retirement system strives to create a culture of constant improvement. Some of the significant accomplishments during fiscal year 2018 were:

- Achieved investment performance for FY 2018 of 8.9% outperforming the Total Fund benchmark return of 7.8% and the retirement system's assumed rate of investment return of 7.25%. The three-year, five-year, 10-year, 20-year, and 25-year returns for the periods ended June 30, 2018, were 7.7%, 8.7%, 7.1%, 6.4%, and 8.0%, respectively.
- Made upgrades to My Account, the retirement system's secure online member portal, including enhanced account setup and password security.
- Instituted ongoing, office-wide onsite security awareness training program.
- Expanded education and outreach to members and employers through live presentations, written materials, and online content.
- Implemented an Insurance Authorization Module which allows employers to submit retiree insurance enrollments and deduction changes automatically via online employer portal.
- Implemented requirements of GASB 75 (Accounting and Financial Reporting for Postemployment Benefits other than Pensions).
- Earned a Certificate of Achievement for Excellence in Financial Reporting for both the Comprehensive Annual Financial Report (CAFR) and Summary Annual Financial Report.
- In April, the Board of Trustees unanimously voted to adopt the recommendations of the Audit and Governance Committees to approve staff's recommendation to move forward with upgrading PensionGold, the retirement system's core pension application system, from Version 2 to Version 3, subject to successful contract negotiations.

Investment Performance

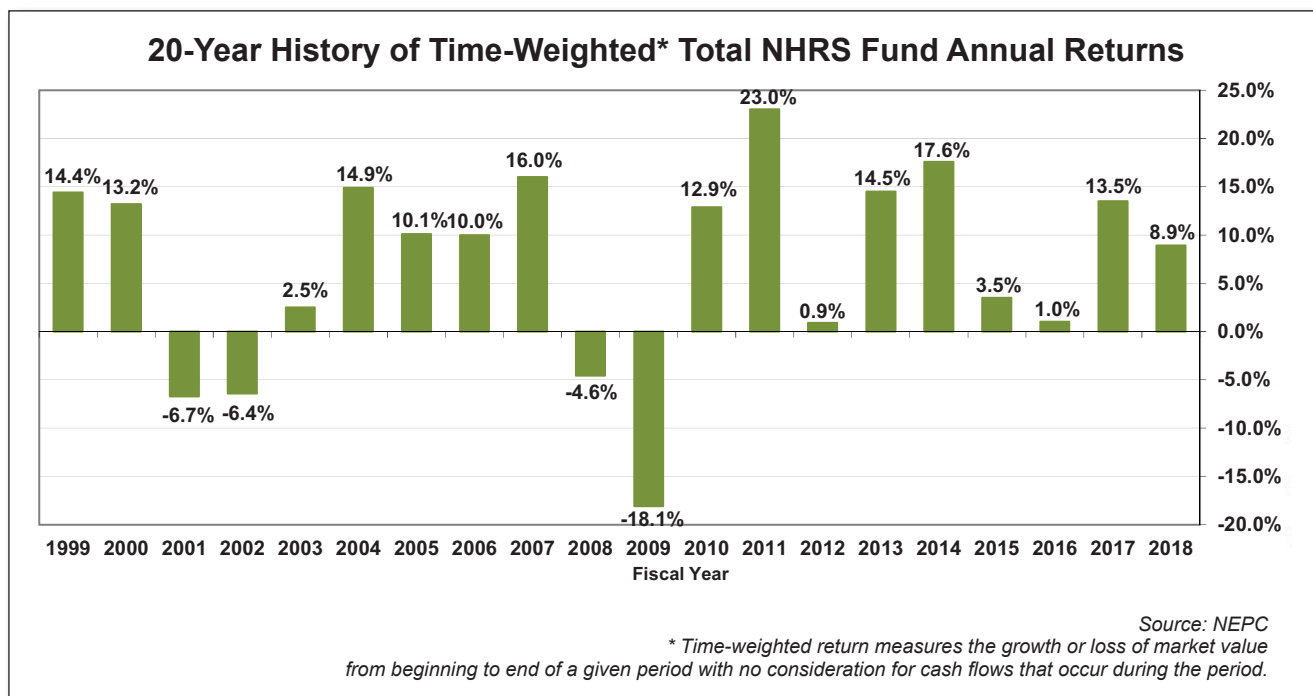

Investment returns are reported net of investment expenses and are measured against a total fund custom index. The total fund custom index (see below) is a blend consisting of major market indices in proportion to the retirement system's asset allocation; this index changes as strategies and objectives evolve over time. The retirement system's assumed rate of investment return is 7.25%.

The results of the plans' investment program for the period ended June 30, 2018, are as follows:

- For fiscal year 2018, the total fund investment return of 8.9% outperformed the total fund custom index return of 7.8%. For this period, the individual asset classes generated the following performance: domestic equity 14.6%; non-U.S. equity 7.8%; fixed income 0.2%; real estate 10.5%; and alternative investments 10.9%.
- The three-year, five-year, 10-year, 20-year, and 25-year returns for the periods ended June 30, 2018, were 7.7%, 8.7%, 7.1%, 6.4%, and 8.0%, respectively.
- Compared to the members in the InvestorForce Public Defined Benefit Net Universe, which consists of 237 public pension plans totaling \$464 billion in assets, NHRS performed better than 90% of its peers over the three- and five-year periods and better than 80% of its peers over the one-, 10-, 20-, and 25-year periods. All returns are net of fees.

	Current Year 2018	Annualized		
		3-Year	5-Year	10-Year
Total NHRS Fund	8.9%	7.7%	8.7%	7.1%
Total Fund Custom Index*	7.8%	7.3%	8.8%	7.2%

* For June 30, 2018, the total fund custom index consisted of: 30.0% S&P 500 Index (U.S. Equity); 20% MSCI All Country World Ex-U.S. Index (Non-U.S. Equity); 25% Barclays Capital Universal Bond Index (Fixed Income); 10.0% NCREIF NFI-ODCE Index – Net of Fee (Real Estate); and 15.0% Alternative Assets Blended Benchmark* (Alternative Investments). *This benchmark consists of: (1) 33.3% S&P 500 Index + 3%; 33.3% S&P LSTA Leveraged Loan 100 Index; and (3) 33.3% 6-month USD LIBOR + 5%.

Diversification of Investments

An asset allocation is designed to diversify an investment portfolio to minimize risk and maximize performance.

The New Hampshire Retirement System Board of Trustees, with research and input from NHRS investment staff, outside experts, and a recommendation from the Independent Investment Committee (IIC), set an investment policy that includes asset allocation targets and acceptable ranges.

The IIC manages investments based on the Trustees' policies; continuously monitors and evaluates performance; and makes determinations regarding the hiring and retention of fund managers.

The actual and target asset allocations as of June 30, 2018, for NHRS are shown on the charts below. Domestic Equity is primarily made up of stocks in U.S. companies. Non-U.S. Equity contains stocks of foreign companies. Fixed Income includes bonds and cash with the objectives of providing current income and preserving capital. Real Estate is primarily made up of investments in commingled real estate funds and real estate limited partnerships. Alternative Investments primarily include private equity and private debt limited partnerships that are not traded in the public market.

More detailed information regarding the NHRS investment portfolio can be found in the Comprehensive Annual Financial Report and the Comprehensive Annual Investment Report, which are available at:

<https://www.nhrs.org/funding-and-investments/reports-valuations>

Actual Asset Allocation Versus Target Asset Allocation

Actual Asset Allocation as of June 30, 2018

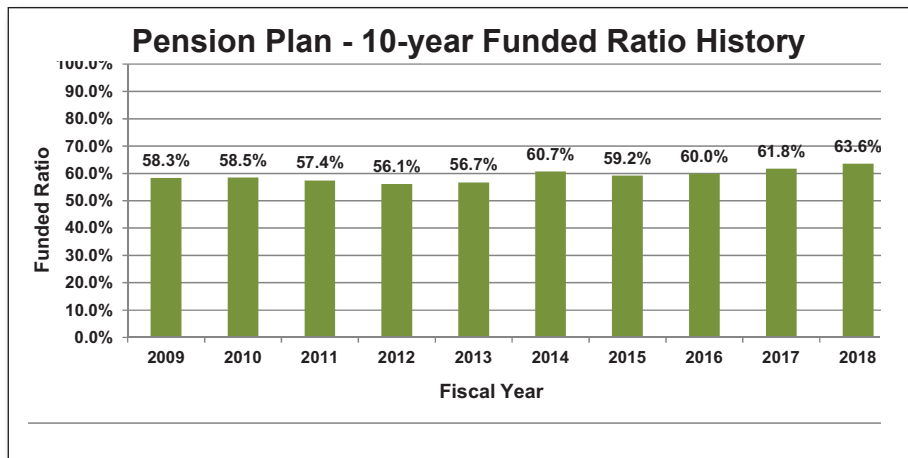

Target Asset Allocation as of June 30, 2018

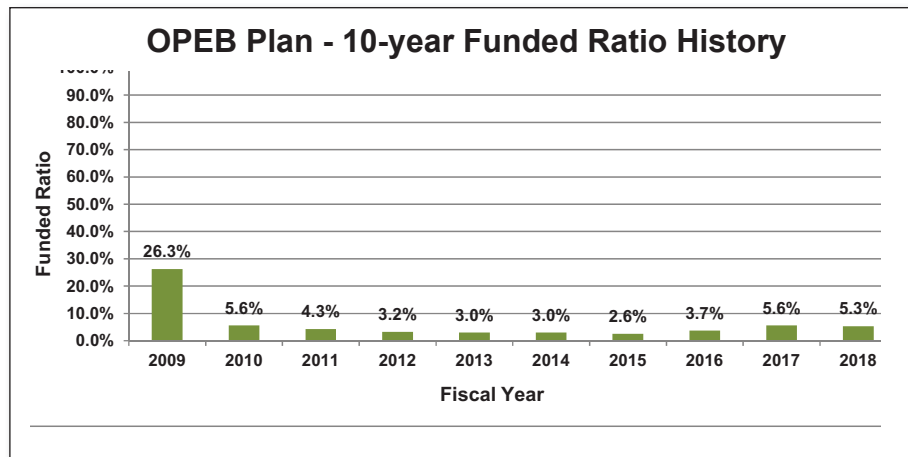

Actuarial Funding Progress

The primary measure of a benefit plan’s progress is its funded status, or funded ratio, which compares the assets available to the benefits that must be paid. As of June 30, 2018, the funded ratio for the pension plan was 63.6%. This means that the actuarial value of the retirement system’s assets is 63.6% of the projected amount needed to pay for both current retirees and the accrued benefit for future retirees.

The OPEB plan, more commonly known as the Medical Subsidy, had a funded ratio at June 30, 2018, of 5.3%. This low funded ratio is because OPEB is funded, pursuant to statute, at the minimum necessary to remain solvent (see note below the OPEB graph). The OPEB benefit covers a retiree population that is fixed and the benefit is no longer available for the majority of current active members.

Note: Funded ratio impacted by reduction to assumed rate of investment return and other adjustments to actuarial assumptions adopted in FY 2011 and FY 2016.

Beginning in FY 2010, the OPEB plans have been funded by allocating the lesser of 25% of all employer contributions made in accordance with RSA 100-A:16 or the percentage of employer contributions determined by the actuary to be the minimum rate necessary to maintain the benefits provided. Since FY 2010, the minimum rate necessary was the lesser of the two options.

Pension Highlights

- The unfunded actuarial accrued liability for the Pension Plan was \$4,992.2 million at June 30, 2018.
- The actuarial value of assets available to pay pension benefits was \$8,710.9 million at June 30, 2018.
- The Pension Plan funded ratio was 63.6% at June 30, 2018.

OPEB Highlights

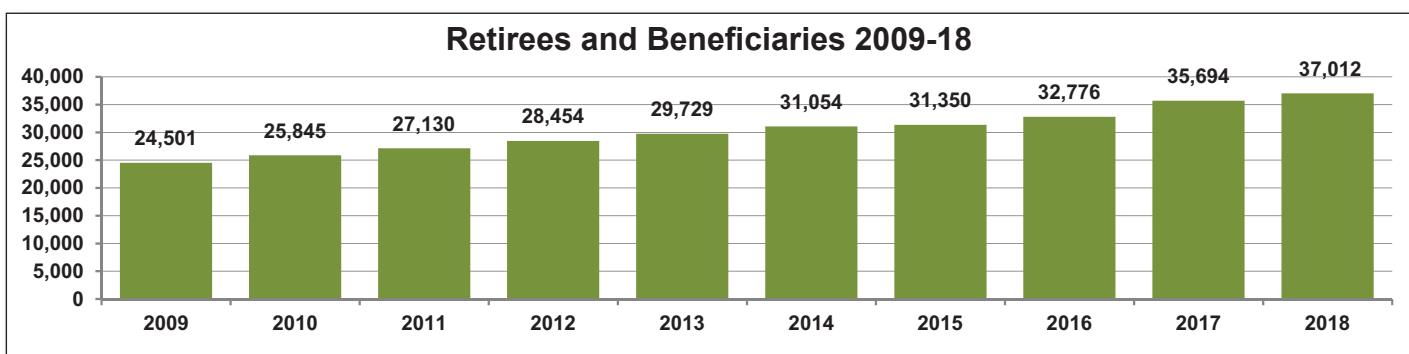

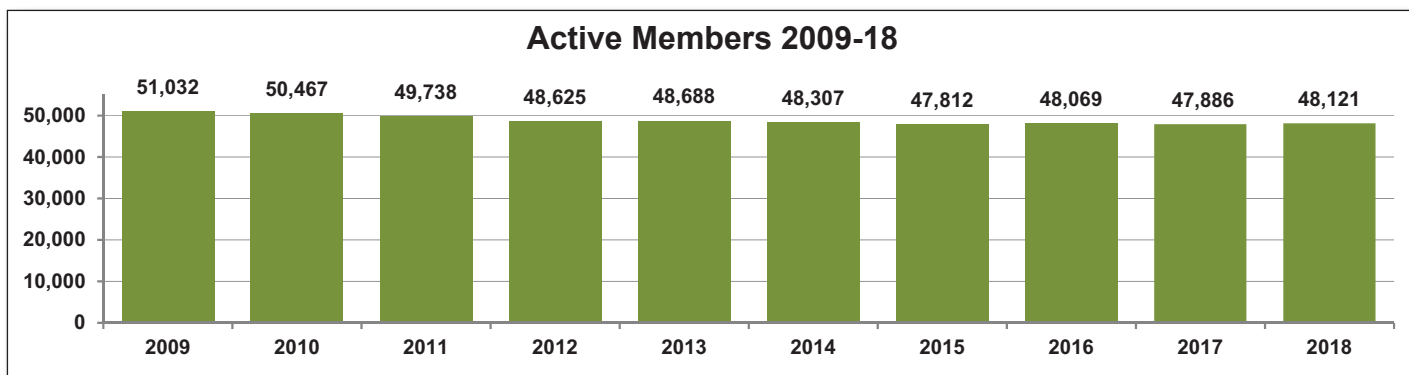

- The unfunded actuarial accrued liability for the OPEB Plan was \$652.8 million at June 30, 2018.
- The actuarial value of assets available to pay OPEB benefits was \$36.8 million at June 30, 2018.
- The OPEB Plans' funded ratio was 5.3% at June 30, 2018.

Financial Accounting Data

In addition to actuarial funding data provided in this Summary report, the retirement system's more detailed Comprehensive Annual Financial Report (CAFR) also includes financial accounting data required under Governmental Accounting Standards Board (GASB) statements No. 67, which deals with financial reporting for pension plans, and No. 74, which deals with financial reporting of OPEB benefits, i.e. the Medical Subsidy.

The GASB information is for accounting purposes only and does not impact employer contribution rates or the statutory funding plan in place to pay down the NHRS unfunded liability.
